

CENEX® RETAIL EXCELLENCE DAILY (RED) SITE ASSESSMENT PROGRAM

A cure can be submitted on an eligible question when an infraction is resolved or when an infraction is believed to be inaccurate. For instance, a location restored a damaged bollard to new condition, which would resolve the infraction and restore points. Another example is if a location believes that a bollard was marked in error and there is no dirt/damage present, points could be returned.

Cures may be submitted for both the Lighting Audit and the Brand Standard Audit.

Tips:

- When submitting a cure, please make sure to show the area(s) documented in the infraction photo. If the cure photo(s) does not address the area in the infraction photo, the cure will be sent back asking for photos of the correct area.
- Submitting a cure for a non-curable question will result in the cure being automatically denied.
- Submit a cure on the relevant scorecard. For example, if you are trying to cure a Lighting Audit question, navigate to
 the Lighting Audit scorecard, NOT the Brand Standard Audit scorecard. If a cure is submitted for an incorrect
 program, the cure will be denied.

The RED Site Assessment Program allows for cures to be submitted until September 30. After September 30, you will no longer be able to submit a cure for the Lighting Audit or the Brand Standard Audit. To earn points back for questions with infractions, submit a cure showing you have rectified the issue. You must show all infractions have been corrected by submitting photo proof.

When your cure is accepted, please allow for up to one business day for scoring to be fully reflected on the portal.

CURE SUBMISSION INSTRUCTIONS

1 LOG IN TO MYSTERY SHOP PORTAL

To submit a cure, log in to the mystery shop portal: mymysteryshopresults.cenex.com.

To submit a cure, navigate to a location scorecard. Click **Submit Cures** underneath **Cure Program.**

If your location received a Lighting Audit, you must navigate to the Lighting Audit scorecard to submit cures for Lighting Audit.

CURE PROGRAM	
Submit Cures	

3 FILL OUT QUESTION DETAILS

- a. Once you have arrived on the cure submission page, only the questions with cures eligible to be submitted will be displayed.
- b. For all the questions that you would like to submit cures for, click on the dropdown next to **Cure Type** and select **Cure.**
- c. Click **Please provide cure reason** to explain the change that was made to receive points back.
- d. Attach photo evidence by clicking on the paperclip icon. You must attach photo evidence to receive points back.

4 UPLOAD PHOTOS

You will be brought to a page where you can upload photos. Click **Add file** and browse your computer for cure photos. Once you have found the appropriate photo, click **Open.**

Repeat this step for any additional photos you want to add. The maximum photo size is 10 MB.

5 ATTACH PHOTOS TO CURE

Once your photo is showing as 100% uploaded, click **Attach Files** to upload your photo to the portal.

If you clicked this before you added all of your files, it will attach only the last photo added. If this is the case, return to Step 4.

6 SUBMIT CURES LATER

Mark cures you will be submitting later as **Not Selected.**

- a. For any questions that you are not ready to submit a cure for, click the dropdown next to **Cure Type** and select **Not Selected.**
- b. Repeat this process for all questions that you are not ready to submit a cure for.
- c. Once you are ready to submit a cure for these questions, you can begin this process at Step 1.

7 SUBMIT CURES

Once all details have been filled out and photos are showing as attached, click **Save All.**

Add Message Attachments

Q10: If the site has dispensers not under a canopy, are the light poles over those dispensers fully lit?

Response: One or more light poles over the dispensers are partially lit/flickering

Cure Type: Cure
| Not selected | Pleat Cure | eason. Add attachments if needed.

There are 0 attachments on this message

HOW TO CHECK CURE SUBMISSION STATUS

Once your cure has been submitted, an email will be sent to the submitter to confirm receipt. If you do not receive a confirmation email, it is possible your cure has not been submitted.

You are only able to submit one cure for a specific question at a time. If you submit a cure for a question, you cannot submit another cure for that same question until the first cure has been reviewed.

Your cure will be reviewed and resolved within **3 business days**. Cures are reviewed in the order in which they are submitted. If you add additional information to the cure before it is resolved, the 3 business days begin from the date in which you submitted the additional information. Your cure will be returned to you if it requires additional information.

To review all cures submitted, navigate to a location scorecard and click **Submitted Cure Log** under **Submit Cures.** From there, you will be taken to a Cure Log that will provide you with the status of all submitted cures.

Click **View Discussion** to see the latest reply in regards to your submission. If additional information is needed to receive points back, select your name from the **Select a User** dropdown, check the box titled **Notify All Users Upon Submit** and repeat steps 4-5 above. Any cure requiring action will appear in red.

As of July 2025, each scorecard will also show the cure status for applicable questions. The cure status will be shown to the right side of the selected answer option. There are four different statues:

- 1. Available The question has an infraction, but you have not submitted a cure yet.
- 2. Pending You have submitted a cure for the infraction and it is in review. You might need to provide further information for the cure to be accepted and points restored.
- 3. Accepted You have submitted a cure for the infraction, the cure has been accepted, and points have been restored.
- 4. Declined You have submitted a cure for the infraction, but the cure has been declined. No points have been awarded.

LIGHTING AUDIT ELIGIBLE QUESTIONS

Use the chart below to determine if your question can be cured. Please do not use other questions to submit cures for non-curable questions. Not all of the Lighting Audit questions will apply to your site.

		POINT	CURE
LIGHTIN	IG AUDIT QUESTIONNAIRE		
1.	Are all MID Cenex logos fully lit?	1	✓

FREQUENTLY ASKED QUESTIONS

How long do I have to submit a cure?

- A cure needs to be submitted with all necessary information before the September 30th deadline.
- If the shop is returned for more information, the information requested is required within the deadline.

How long does it take for a cure to be reviewed and resolved?

- A cure will be reviewed and resolved within 3 business days.
- If you add additional information to the cure before it is resolved, the 3 business days begins from the date in which you submitted the additional information.
- Allow for one business day for scoring to be fully reflected on the portal.

If I have an exception that was not applied, what kind of proof is needed?

• Cures for an exception need to be submitted with a screen shot of approved exception from Cenex.

What if I lost points but have an active work order pending?

- Submit a copy of the work order, include the date it was submitted, the anticipated date of completion, and a description of the work to be completed.
- Work orders are required to be completed in a reasonable amount of time for points to be returned. Please note that reasonable amount of time is defined by Cenex Retail Excellence Daily (RED) Site Assessment Program team. The pending work order is required to cover the question being cured.

How do I submit a cure for the Bass Pro Shops/Cabela's promotional material question?

• Submit a completed remediation form and attach it to your cure.

What if my location was closed at the time of the shop?

- If the location is "Temp Closed" (defined as unable to sell fuel): Please advise Temp Closed in the cure.
- If the location is permanently closed: Please advise Permanently Closed in the cure.
- If the location is seasonal: Please advise Seasonal Location in the cure with the periods of time the location is fully open.
- If the location hours do not match what is posted online: Submit an image of the posted hours. A reshop of the site will be considered.
- If the location c-store was closed during posted hours of operation but the pumps were available: The shopper cannot complete the audit, a reshop will be considered.

My location does not have a c-store, but my evaluation includes c-store questions. How do I resolve?

Include the type of site in the cure to re-evaluate the shop.

What do I do once I have repaired an infraction from my shop?

- If the question is curable, take an image of the area captured by the evaluator as evidence that the infraction has been removed/repaired.
- Submit the image under the appropriate question as a cure before the September 30th deadline.
